Awebdesk Email Marketer v8.0 Beta release access

2016-12-29 - Sandeep Kumar - 0 Comments - in Company News

We are pleased to announce the immediate availability of Awebdesk Email Marketer version 8 Beta access.

Followings are the v8 highlights:

1. Amazing performance enhancements. Boost upto twice email importing and send speed.
2. Complete codes review and modifications to almost 50%+files.
3. MYSQLI/PDO support
4. Php 5.4, Php 5.5, Php 5.6 support

Testing results: We have been able to achieve an import of 1,00,000 emails(single column) in less than 2.5 minutes on our Core 2 duo, 16GB Ram server. MYSQLI support has improved database performance upto twice.

Since its beta release, we are looking for feedbacks from our customers. To request beta access please send an email to [support\(at\)awebdesk.com](mailto:support@awebdesk.com) with your license key or registered email. our support team will start providing downloads access after 1st Jan'2017 on case by case basis with feedbacks from them too.

You must have an active support to gain beta access. You can renew your access at:

Renew AEM support/updates:

https://customers.awebdesk.com/order/index.php?q=product&product_id=10&category_id=1.2

Renew ESP support:

https://customers.awebdesk.com/order/index.php?q=product&product_id=12&category_id=1.2

Any feedbacks would be highly appreciated. You may reply here for open discussion.
